PROFILE

Aspiring Full Stack Developer with proven leadership and analytical skills. Adept at leveraging the **MERN stack (MongoDB, Express, React, Node.js)** and new technologies to build scalable, user-centric web solutions.

EDUCATION

Padmabhooshan Vasantdada Patil Institute of Technology   *Pune, India*
Bachelor of Engineering in Computer Engineering   2023 – 2027
- Relevant coursework in [Development, Data Science, ML, etc.]

SKILLS

Technical: React, Node.js, MongoDB, JavaScript, Python, HTML, CSS, MySQL, REST APIs
Tools: Git, GitHub, Docker, Postman, Excel

CERTIFICATIONS

- **MySQL 8.0 Database Developer** (Oracle Certified Professional)
- Python Mastery for Beginners
- Tata Group - Cybersecurity Analyst Job Simulation | Data Visualisation

EXPERIENCE

Smart India Hackathon 2024   Nagpur, *India*
Team Leader
- Led a national-level team (SIH 2024) in the development of a full-stack platform, securing a Grand Finale spot.
- Guided the team through **agile development cycles** and coordinated tasks among developers to ensure timely delivery.
- Presented the project prototype and solutions to the national jury and mentors.
- Demonstrated strong collaboration and planning skills in a high-pressure, national-level innovation event.

PROJECTS

VoxUp (Voice-Powered Coding Platform)
- Architected and developed a full-stack, voice-powered, gamified education platform.
- Engineered over 90% of the frontend and backend using **React, Node.js, MongoDB, and REST APIs** (MERN stack). Integrated AI/NPL tools for engagement and accessibility.
- Led a 4-member team to the **Grand Finale of Smart India Hackathon 2024** (Software Edition).

ComfyNest (E-commerce Solution)
- Developed a responsive and accessible E-commerce solution featuring advanced product filtering and user authentication.
- Built the frontend using HTML, CSS, JavaScript, and Bootstrap.
- Focus on enhancing user experience through accessible design and effective state management.

ACHIEVEMENTS

- **Smart India Hackathon Finalist** in both the 2024 (Software) and 2023 (Hardware) editions, showcasing strong technical and leadership skills.
